## SPECIAL NOTICES

- A. Estimates following each lot are for the guidance of bidders. These figures do not represent reserves or guarantees of any kind. Prices may be higher or lower than estimates.
- B. An official list of prices realized will be prepared about 2 weeks after the sale. You may order it by checking your BID SHEET in the square provided for that purpose.

## HALF CENTS

(Attributions are to Gilbert-G, Breen-B and Empire-E. The latter published in 1962. Gilbert published 1916. Breen, unpublished, has been used in several auction catalogues and, partially, in some edition of the Standard Catalogue. Unfortunately, the B numbers have not remained unchanged, creating some confusion. We have tried to use the latest numbers but cannot be certain that these will remain unchanged. For example, in a 1954 Sale, 1825 G1 was B64, in 1962 it was B65.)

### \* — SEE PLATE

- 49—1793 First year of the issue of half-cents. Gilbert 1, Breen 3:2B, Empire 1. Date and LIBERTY are sharp. An attractive coin despite pitting. Rarity 4, fine-15. In demand, should bring more than \$325.00
- 50—1794 G-7, B9:3-E, E-11. The divided date 1 79 4. Swelling in die at right of 4, heavy injuries from wreath show between cap and wreath and before nick and face. Rarity 5, VF-30. Not in Dupont sale, seldom offered. \$225.00
- 51—1795 G-1, B14:1A, E-14. Lettered edge, with pole, perfect date. A desirable "type" coin. Very fine-25. \$175.00
- 52\* 1795 G-3, B15a:2A, E-15. Lettered edge, with pole, punctuated date. A most pleasing coin, light to medium brown. Acquired out of the Frederick W. Geiss Sale as Uncirculated. It is certainly AU-55, superior to Dupont, Ryder; not in recent New Netherlands offering (6/62). Rarity 4. Should fetch \$400.00 or more.
- 53\* 1795 G-4, B17:2C, E-16. Plain edge, with pole, punctuated date, thin planchet. These dies were well worn and HALF CENT is rarely found even partly visible, although on this specimen it is quite discernible with most of the letters very clear. There is the heavy swell before face, granulation and heavy break from first T in STATES. One must keep in mind that half cents were usually struck on poorer or discolored copper, the better material having been reserved for large cents. Rarity 4, and especially hard to find so nice. Our grading of XF-40 on this example may invite criticism. Please examine the coin very carefully before finding fault. Dupont's was only "about very good", the NN piece VF-20. Mr. Lahrman may have just about as nice a coin as one can find. \$325.00
- 54—1795 G-5, B19:3D, E-17. Plain edge, no pole, triple leaf at IT, thin planchet. Struck off center on a poor planchet. The lettering is sharp. Very fine-25. A popular "type" coin. \$150.00
- 55\* 1797 G-1, B22a:1A, E-22. Lettered edge, low head, triple leaf under AME. AMER of a Large Cent embossed on obverse from below Liberty's ear across neck and last 7 to edge. Probably only 3 known pieces struck over a large cent. Dupont had one on which 1798 showed clearly on the obverse (probably the Alvord specimen), Gschwend had a second and this is ex-Proskey and Hughes. The obverse is easily fine; on the reverse TES OF A are weak but clearly discernible, LF and T within wreath worn. This is one of the rarest of the Half Cents varieties and our coin is ex-Proskey. There are perhaps not more than 2 dozen specimens known with probably not more than 6 in fine or better condition. F-12 would be a fair grading for this rarity. Should bring \$500.00.
- 56—1797 G-3, B24:3B, E-23. Plain edge, centered head. Poorly struck on a "tired old planchet." Die break at UNI. This is ex-Dr. French, about Very fine-20. \$100.00.
- 57—Another G-3, struck much better but has several scratches. Otherwise VF-20. Die break at UNI. \$150.00.
- 58—1797 G-4, B23:2B, E-24. 1 over 1 in date. Struck from badly injured dies and, very likely, over a Talbot, Allum and Lee token. Weak TED and ICA. About very fine-20. \$90.00.

- 59—1800 G-1, B25:1A, E-25. A lustrous, sharp example. Slight abrasions take this out of the Uncirculated class but, certainly, it is AU-55. \$95.00.
- 60—Another 1800. The only variety of this date. An attractive red-brown coin, XF-40 or better. \$45.00.
- 61\* 1802 over 1800 as are all of this date. G-1, B27:1B, E-27. Ex-French, T. J. Clarke. Rarity 4, VF-20 and difficult to find so nice. \$250.00
- 62—1803 G-3, B31:2D, E-30. The ciphers in the denominator just about touch; a bulge at 18. An attractive light olive, AU-55. \$70.00
- 63—Another 1803 G-3. Not quite as sharp, XF-45, olive. \$55.00
- 64—1804 G-1, B43:6-G, E-32. Plain 4 with stems. Ex-Proskey, Hughes. A sharp, VF-30, despite a chin gash. Very scarce in this condition. \$60.00
- 65—1804 G-2, B42:6-F, E-33. Plain 4, no stems. A very attractive light brown AU-55. Ex-Chas. M. Williams Coll. \$50.00
- 66—Another G-2 almost as nice, mottled brown. AU-50 \$42.50
- 67—G-2 again. Extremely Fine-40. Obviously one of the more common varieties of 1804 but a "type" coin and in demand as such. \$30.00
- 68—A fourth G-2. VF-30 \$22.50
- 69—A final G-2, VF-20. \$16.00
- 70\* 1804 G-3, B41:5-F, E-34. Crosslet 4, no stems. A most interesting example formerly in the famous Frederick W. Geiss Collection. Struck on a roughened planchet with a clip at rim above BE. Incusation of part of wreath is evident from ribbon to hair behind head. A delightful medium olive-brown coin without signs of any wear. A very rare coin in this condition since there are probably no more than 6 known as uncirculated. \$150.00
- 71—Another G-3 on a rough planchet. VF-25 \$25.00
- 72—1804 G-5, B39:4-E, E-36. Crosslet 4, with stems. On a rough planchet but well struck. Red brown, almost XF. \$35.00
- 73—1804 G-6, B32:1A, E-37. High crosslet 4 touches drapery. Ciphers in denominator touch, reverse of 1803 with heavy die crack. VF-20 and scarce. Ryder had none, Dupont a 15. \$37.50
- 74—1804 G-7. VF-25 \$25.00
- 75—G-7 With heavy rim break over LIBE to R, Scarce. XF-40. \$60.00
- 76—Another with same rim break, ex-Proskey-Hughes. VF-30. \$45.00
- 77—1804 G-8, B37:3-D, E-39. Same obverse as in G-7. Several reverse breaks, all light except over U. VF-25. Scarce. \$40.00
- 78—Another G-8 with several heavy breaks becoming rim breaks over A, another over MERIC, again under UN and 20 of denominator. VF-25. \$32.50
- 79\* 1804 G-9, B36:3-C, E-40. Obverse as in G-7 with spiked chin. Wide fraction, with 2 not under bar. First T in STATES has a plain right base, the second does not. This specimen is without the rim break over OF A. A high Rarity 6. A fine-15 in the Dupont Sale in 1954 sold for \$75.00. This VF-20-25 is far superior and should create a stir. \$400.00
- 80\* 1804 G-10, B34:2B, E-41. Low 4. Rough reverse and scratches on obverse but hard to find in any condition; this variety is Rarity 7 and the rarest of all the 1804's. About fine and not quite as nice as the Dupont piece which fetched \$100.00 in 1954. Today our coin should bring \$200.00 or more.
- 81—1805 G-1, B47:3-C, E44. Small 5, without stems. The W. W. Neil coin. Extremely fine 45. \$60.00
- 82—1805 Another G-1. Attractive, light brown, barely if at all circulated. A desirable coin. \$95.00
- 83—1805 G-1. Very fine-35. \$35.00
- 84—1805 G-2, B46:2-B, E45. Large 5, with stems. Fine-15. \$15.00
- 85—1806 G-1, B50:2-B, E48. Small 6, without stems. Splendid medium red-brown. One spot at I in UNITED. Ryder and Dupont had only VF-30's. This is MS-60. \$100.00
- 86—1806 G-1. Ex-Dr. French. Barely circulated with traces of red. AU-55. \$70.00
- 87—1806 G-1. Clip in flan above TY, another under the fraction. VF-35. \$25.00

- 88—1806 G-1. Very fine-30. \$20.00
- 89—1806 B-2, B48:1-A, E50. Small 6, with stems. The 6 is not near the bust. Rarity 6, Very fine. Out of our 1953 ANA Convention Auction. Worth \$125.00
- 90—1806 G-3, B51:3-C, E51. Large 6 touches drapery. Light brown, struck a bit high on planchet. Upset reverse. AU-50. \$32.50
- 91—1806 G-3. Medium olive-brown, well-centered. AU-50. \$32.50
- 92—1806 G-3. Struck high, VF-35. \$20.00
- 93—1807 G-1, B52:1-A, E52. Only one die used this year, usually weakly struck. Except for a couple of edge bruises, this coin is extremely fine and very scarce in this condition. There are very few better specimens. \$50.00
- 94—Another 1807. Very fine. \$25.00
- 95—1808 over 7. G-1, B54:1B, E54. Someone playfully scratched the reverse a long time ago. An attractive VF-30 and scarce. Worth \$110.00
- 96—1808 G-2, B55:2B, E55. Normal date. VF-30 or better. Upset reverse 180°. \$30.00
- 97—Another 1808 G-2. VF-20. \$20.00
- 98—1808 G-2. Gilbert called it #3 but even he was aware that it was the #2 die. Fine \$10.00
- 99—1809 G-1, B56:1-A, E-56. Inner circle in O of date; the entire date appears to have been re-cut. Scarce, VF-25, Rarity 4. \$37.50
- 100—1809 G-2, E57. The O in date very low, no inner circle. Very fine \$16.00
- 101—1809 G-4, B59:3C, E60. The wide date 1 8 0 9. Lustrous dark brown, slight abrasion. Reverse struck a bit high. Acquired as uncirculated, AU-55. \$42.50
- 102—1809 G-4, on a slightly roughened planchet. Reverse struck a bit high. AU-50. \$40.00
- 103—1809 G-5, B60:4-D, E61. The 1809 over 6 or over inverted 9 (early mint error). An attractive red-brown MS-60, ex-Geiss Collection. Scarce in uncirculated condition. Popular over-date. \$100.00
- 104—1809 G-5. 1809 over 6. About extremely fine-35. \$32.50
- 105—1809 G-5 Another over-date. Very fine \$22.50
- 106—1809 G-5. Very fine \$22.50
- 107\* 1810 G-1, B62:1-A, E62. Only one variety of this date is listed. However, this coin has a light break connecting MER and seems to represent a new reverse variety. A splendid example, ex-Dr. French and T. James Clarke. (called the 'boldest known' — the coin, of course!) There are incusations on obverse creating a roughness at the neck and jaw, swelling at the lips and neck. MS-60; worth \$250.00
- 108—1810 G-1. Very fine-30. Uncommon. \$40.00
- 109—1810 G-1. Very fine-30. \$40.00
- 110\* 1811 G-1, B63:1-A, E63. Close date, die injury from bust to date. Scarce. Very fine. \$150.00
- 111—1825 No half cents were dated from 1812 through 1824. G-1, B65:1A, E66. Curl over 25. VF-35. \$20.00
- 112\* 1825 G-2, B66:2A, E67. Curl over 5. The vertical crack is faint and seems to stop at the curl, a very rare state of the die. The 1st, 2nd, 5th and 6th stars have been re-cut. HALF CENT re-cut. MS-60, delightful light to medium brown. Ex-Raymond. There may be only 4 or 5 specimens of this state of the die. \$300.00
- 113—1826 G-1, B67:1-A, E68. Not quite XF, a 35 grade coin. \$20.00
- 114—1828 None minted in 1827. G-1, B70:2B, E70. Thirteen stars; point of high leaf ends to the right of final S in STATES. A lustrous olive-red MS-60. One of the more common half-cents. \$35.00
- 115—1828 G-1. Attractive red. AU-55. \$27.50
- 116—1828 G-1. Very fine-30. \$15.00
- 117—1828 G-2, B69:1-A, E71. Thirteen stars. Olive-brown AU-55. Scarce. \$50.00

## LARGE CENTS

- 159\* 1793 Sheldon 2, Crosby 1-C. The popular Chain cent, wide date: AMERICA spelled out in full, edge bruise right of it. A clean, olive-brown VF-25, ex-Deetz Coll. Recent offerings for inferior coins in the four figure bracket, indicates a price of at least \$1000.00 for so nice a coin.

- 160\* 1793 S3, C-3c. Chain Cent, LIBERTY irregular, R large, high and leaning right. Incused outlines of the links of the chain are seen in front of the mouth and throat and under the neck. In popular demand, this coin was acquired as 'Extremely Fine.' It is VF-35 with the reverse a bit closer to 40. The Schwartz 40 sold for \$1050.00 in 1961. This should bring more today.
- 161\* 1793 S9, C-9H. Horizontal stem, large round bow. A splendid chocolate brown example. Sharpness of Ex. F.-40; has an edge bruise opposite nose. The Schwartz 40 sold for \$425.00 in 1961.
- 162—1793 S9, C9-H. The Wreath cent. Horizontal stem, large round bow. An attractive light to medium brown. VF-25, equal to the Schwartz piece which sold for \$200.00 in 1961. \$275.00
- 163—1793 S11a, C11-J. Vine and bars, vertical left leaf. A well-centered example of this rare die variety, Rarity 6. This is the Pearl Specimen which we sold in 1944. It is Fine-15 (called F-12 in Pearl Catalogue). It should fetch \$325.00
- 164—1793 S11c, C11-J. Lettered edge, single leaf. Traces of the wreath are incused below the chin. One of the more attractive die varieties of this date. Pleasing medium brown, VF-30 (acquired as XF). \$400.00
- 165\* 1793 S13, C12L. The rare Liberty Cap Cent, a popular piece, always in demand. This is not quite as nice as the Sloss 30 which fetched \$725.00 in 1959 but should bring pretty close to that figure today.
- 166—1794 S24, Hays 17, Chapman 8. The Scarred Head, full cheeks. A beautiful variety, attractive red-brown, VF-30. Ex-Brand Coll., out of our 1953 ANA Convention Auction. \$65.00
- 167—1794 S28, H23, C20. LIBERTY high. Maris called this the Ornate Variety. Medium brown VF-30. \$65.00
- 168—1794 S29, H24, C21. The tailed right ribbon struck off-center on both sides so that there are no denticles at the right. (a scarce mint error?) Attractive, VF-30, Rarity 3. \$75.00
- 169—1794 S30, H27, C22. The Marred Field, tailed reverse. Clip in planchet above TAT. 2 scratches on reverse. A lustrous VF-30. \$30.00

- 171—1794 S44, H33, C36. Short bust, large berry opposite C in CENT. Dark but clean surface, VF-30. The Schwartz VF-25 sold for \$70.00 in 1961. \$85.00
- 172—Another S44. Edge bruise. Sharper than previously listed coin. About VF-30. \$75.00
- 173—1794 S55, H13, C44. The Slanting 7, large berries. Sharp, Olive VF-30-35 and quite rare in this condition. The condition census includes a 30 grade. Duponts was only a 15, Schwartz an 8, Clarke had none. Should bring \$125.00
- 174—1794 S63, H32, C38. The Fallen 4, date completely re-cut. LIBERTY very high, button-like appendage at lowest corner of cap. Very fine-25. Rarity 3. \$70.00

- 176—1794 S71, H52, C57. Three short lines, probably from a die injury, cross the bridge of the nose to the eye; triple leaf under D. VF-20. \$40.00
- 177—1795 S74, Doughty 68, Clapp-Newcomb 2. Lettered edge, top of 5 almost entirely lost in bust; branches terminate in single leaves. A clean VF-25, sharp lettering. Rarity 4. \$100.00
- 178\* 1795 S76b, D66, CN4. Plain edge, ONE CENT high in wreath. The die is crumbling at OF. An unusual feature not previously noted — at the rim starting above the right bar of T, over E there are 3 heavy denticles and an extension of rim-break almost to S. This is a splendid even-brown AU-55, out of the famous Oscar J. Pearl Collection. This die variation may be rare. The Sloss AU-55 sold for \$100.00 in 1959. Worth over \$200.00

- 179—1795 S78, D70, CN6. Plain edge, the full curve of the 5 is visible; ONE CENT central in wreath, 3 berries on right branch, 4 on left. A finely executed coin, lustrous deep-olive; XF-45. The Schwartz 50 sold for \$150.00 in 1961, New Netherlands 35 fetched \$110.00 in June 1962 and their MS65 realized \$430.00. Worth \$175.00
- 180\* 1796 S81, Gilbert-A, CN-A. Liberty cap touches L, 1 almost touches hair and pole is attached to bust; double leaf under N. A soft olive-brown AU-50. Popular "type" coin. Back in 1956, the Clarke AU-55 sold for \$310.00 and this coin should easily bring that price today.
- 181—1796 S87, G-C, CN-C. Liberty cap, the low 6; double leaf left of ONE, numerator too far right. Rusted die spots on reverse. Rarity 3. Fine-12. \$50.00
- 182—1796 S93, Gilbert 2, CN-2. Draped bust, hyphen-like break between 7 and 9. This VF-20 is ex-Frederick W. Geiss Coll. One of the very few varieties lacking in the Schwartz Collection. Recent New Netherlands VF-20 fetched \$110.00
- 183\* 1796 S102, G-7, CN-7. Draped bust. Dot-like defects between bust and date; double leaf under O in OF and another terminates right branch. Another Geiss coin XF-45, Rarity 4. About as fine a specimen as is known. In fact, Dr. Sheldon's condition census is topped by a 45! This splendid specimen may well "runaway" in the spirited bidding it promises to attract. Certainly worth \$450.00
- 184—1796 S104, G-10, CN-9. The LIHERTY obverse; triple leaf under O. The B was first cut in reverse and when re-cut, it looked like an H. A popular "type" coin, Fine-12. \$60.00
- 185\* 1796 S118, not in Gilbert, CN-14. Close date, the top of the 6 is lost in the bust, 1 almost touches the hair and the 9 is low; right branch terminates in a double leaf; the only cluster of 3 leaves is under O in OF. A Rarity 7, only ten specimens known to Sheldon (this may be the 11th). Fine-12. None in Clarke, Dupont, Sloss, Schwartz, etc. Two of the known coins are impounded in the American Numismatic Society. An interesting feature — Sheldon mentions that he has seen 6 specimens, 4 perfect reverses, 2 with rim breaks under left ribbon extending to below 1 of the denominator. The Lahrman coin has a rim break starting at the right upright of U and extending over N. Any Rarity 7 commands attention. Worth \$500.00
- 186—1797 Sheldon NC-3, Not in Doughty, Clapp-Newcomb 28. The closest date of the year, obverse 4. Reverse D. Fraction bar short covering only half of the second O. OO closer than 10. Stems short, the left pointing to the center of the bottom of U, the right to the right foot of A. TAT high, second berry on left touches the stem above. The date is very sharp, LIBERTY weak but discernible. ITED STATES OF AMER strong, N — IC weak; denominator and below are worn. There are two known Good-5, one a 20 is in the American Numismatic Society. Rarity 8, Good-4. An unusual opportunity for the advanced collector of Large Cents. \$350.00

- 188—1797 S121, D93, CN3. Close date, defective B, gripped edge. Strong die crack from rim to knot. A very attractive coin although somebody tooled and fooled with it years ago. VF-30 but looks better. \$100.00
- 189—1797 S121, D93, CN-3. Close date, defective B; gripped edge. Struck from injured dies. Easily VF-20 or better. This is the Pearl Coin. Rarity 3. Worth \$70.00
- 190\* 1797 S131, D98, CN-14. Curved break behind hair ribbon, late state; stemless wreath. Lustrous reddish-brown. Ex-Geiss Collection where it was listed as XF-40. Grading it as a 35 still makes it equal to the 3rd or 4th finest known. The New Netherlands June Sale S131, a 35, sold for \$270.00
- 191—1797 S131 subvariety (?). Has all of the characteristics of S131 except the curved break is either just starting or has been ground down. A further possibility is that the die was injured more seriously. Ex-Geiss, VF-25, Condition census coin. Before leaving this item, it should be noted that it has been called S132 a rarity 7. If so, it would command a far higher figure. \$200.00

- 192—1797 S136, D102, CN19. Wide date with 97 close; 4 berries on right branch. The reverse die was injured causing flatness of letters within wreath. Rarity 4, VF-20. \$50.00

## CENTS OF 1816 - 1857

The 'Late Date Cents' are attributed to "United States Copper Cents 1816-1857" by Howard R. Newcomb. Reprints of this book may be available. Included in this offering are a number of proof coins and a few "so-called" proofs. These were retained by Dr. James O. Sloss when he sold his collection in 1959. He found it difficult to part with them at the time.

- 290—1816 N2. Not in Schwartz. A sharp, olive-brown, AU-55. The New Netherlands MS65 sold for \$75.00. Worth \$45.00
- 291—N4. Rarity 3. Very fine-25. \$15.00
- 292\* 1817 N11, but with double profile and double cut 7. Red olive, MS-60. Choice cents of this vintage are being sought and prices are climbing. This group represents one of the best "buys" in the numismatic field. \$80.00
- 293—N12 Rarity 4. 17 are close. Crack circles most stars and date. Ex. F-40. \$30.00
- 294—N13 Close date VF-20 (7.50) N14. First 1 far left VF-25 (12.50) 2 pieces \$20.00
- 295—N16. The Fifteen Star Variety, with rim break over AM. Reverse struck slightly to right. A medium brown MS-60 with a spot at 9th star. Rare and popular. The Sloss 65 sold for \$115.00 in 1959.
- 296—N16, another, Fifteen Star variety, VF-35. \$40.00
- 297—1818 N6. First 1 close to bust. Medium brown AU-50, verdigris. \$30.00
- 298\* N7. Die crack unites sixth and seventh stars. There is roughness above first A in AMERICA. A choice, lustrous medium brown specimen. Proofs were struck from these dies and although we do not consider it to be a Proof, Dr. Sloss retained this coin with his Proofs. Ex-T. J. Clarke. Worth \$150.00
- 299—N7. With obverse die crack. Mottled olive, red and brown. MS-60. \$35.00
- 300—N10. The circular die crack. MS-60, mint red. Fetched \$36.00 in June '62 New Netherlands Sale.
- 301—N10. Reddish brown, some verdigris on reverse. AU55. \$20.00
- 302\* 1819 N1. The over-date 1819 over 18. Ex-Geiss Coll. Lustrous olive, prooflike surfaces. Almost MS-60 (because of some 'digs' on obverse). A most attractive example of the popular variety. The MS60 in the Schwartz Sale brought \$210.00. It would not surprise me to see this coin go far higher.
- 303—N1. 1819 over 18. Triple profile (most unusual). Olive-brown XF-40. Rare. \$85.00
- 304—N2. Large date, recut 8. Die break thru most stars and date. Olive-brown with traces of red. XF-45. \$30.00
- 305—N6. Small date, VF-25. \$17.50

- 315—N5. Very fine-25. \$20.00
- 316—N13. Circular die break. Splendid reddish brown, MS-65. The New Netherlands 60 fetched \$47.50. Worth \$55.00
- 317—N13. Pale green and light brown fuse to make a most attractive color. May have been cleaned long ago. MS-60. \$45.00
- 318—N13. Roughness on obverse, mottled olive and brown. XF-40. \$20.00

- 319—N13. Very fine-25. \$10.00

- 321—N1. Fine-15. Scarce date. \$30.00
- 322\* N2 Wide date. Lustrous light olive, ex-Hughes and supposedly from the Newcomb Collection. It has been classified as "gem" with "proof surface" to which we cannot subscribe, but—it is a lovely coin. MS-60 and should attract bidders to \$175.00
- 323—N2. Very fine 25 or better. Ex-Ballard Coll. \$50.00
- 324—N2. Very fine 20. \$40.00

- 328—N1. Very fine 20. \$45.00
- 329—N2. Perfect date. Rim break from 4th to 5th stars, another over 6th. VF-25, ex-Golding. Scarce. \$60.00

- 338—N3. An attractive AU-55 out of our 1947 Buffalo ANA Convention Auction. Reddish-brown. Uncommon, so nice. Not in Clarke, Dupont had only VF, Schwartz XF. The Sloss MS-60, choice, fetched \$170.00. This is worth at least \$75.00
- 339—N4. Large A's. A scarce variety VF-25, almost an R-4. \$25.00
- 340—N7. Recut 5. This is the Pearl Specimen, VF-35. The reverse is closer to a 45 grade coin. \$37.50
- 341\* N9. A splendid coin, brilliant red blending with light olive, lustrous surface and sharp edges. Superior to the Dupont Proof which was re-sold in the T. J. Clarke Sale in 1956 and then fetched \$155.00. Today these are bringing top three figure prices. With the recognition of practically all proof coins as rarities has come the realization that really early gems are extremely desirable. The trend indicates that such coins are the "hen's teeth" of the very near future. Half-cents have already soared to the 5-6 and \$700.00 mark. This is the first offering to include Large Cents of this calibre since the recent spurt in market values. Should bring more than \$550.00

- 395\* N12. Beaded cord. A very rare variety, superior to the Taylor-Schwartz VF-25 which sold for \$51.00 in 1961. This medium olive-brown coin has the sharpness of an XF-40 (acquired as XF), however, some 'digs' and abrasion in field before face reduce it to VF-30. - 413—N7 Large date, olive, XF-45. \$30.00
- 414—N10 Large date. Some "digs", olive-brown VF-30. \$18.00
- 415\* 1841 N1. Proof. Mint red with olive toning. There is a very faint, scratch-like line before nose. This is ex-Judge Sawicki, Sloss. Duponts, 1954, sold for \$140.00. This should exceed \$500.00. It is in order to point out that Proof Large Cents have not been offered and may not again be offered for a long time. The time to buy these rarities is when they are available—now.
- 416—N2. There is a delicate crack from throat to rim, right of first star, not mentioned by Newcomb; olive-brown, some red. XF-40 \$25.00
- 417—N5 Crack thru top of date and many stars; cracked reverse. AU-50, scarce. \$55.00
- 418—1842 N2 Small date. Edge bruised; olive-brown, XF-45. \$30.00
- 419—Another N2. VF-25. \$16.00
- 420—N3 Large date. Olive-brown, about XF-40. \$25.00

- 429—N2 The scarce 1844 over 81. A popular "type" coin, VF-35. \$35.00
- 430—Another N2. Ex-Ballard Coll. VF-30. \$30.00
- 431—N5. Scarce. Sharp, dark surface. XF-40. \$22.50
- 432—1845 N5. A splendid olive and brown, AU-55. Very attractive. \$25.00  
(Note: Newcomb lists 14 die varieties of 1845. There are many more. Admiral Bitler found 27 varieties.)
- 433—1845 Acquired as N2, Raymond 1913 auction, the 84 are too close; more nearly resembles N8. Lustrous olive-brown MS-60. \$45.00
- 434\* N14. Proof. A superb brilliant red, extremely rare variety. In 1944, when we sold the Oscar J. Pearl Collection, his specimen was believed to be unique, having been used by Newcomb for the die description. Since then several have been discovered, all in proof condition with one appearing in the Dupont catalogue. Clarke did not have one. We might add that the Pearl Coin sold for \$125.00 in 1944. In today's market this rarity may well bring \$1000.00
- 435—1845 Obverse as in N2, reverse as in N6. Cleaned VF-30. \$15.00
- 436—1845 Close date, 84 very close, entire date recut. VF-30. \$15.00

- 446—1847 1 touches bust, 84 not so close. Has been cleaned. Scratch on neck, AU-55. \$17.50
- 447—1848 N15. Exceptionally rough field between denticles and stars. Iridescent AU-55. Scarce variety, not in Schwartz. \$50.00
- 448\* 1848 N19. Proof. A superb "dream" coin. A breath-taking combination of red, olive and blue brilliance that will entice bids beyond the rarity value of this coin. An estimate? If I were collecting these, my hand would stay up——.
- 449—1848 1 very close to bust and 4 seems to just touch curl, engravers lines at neck and behind head. Medium brown, some verdigis. VF-35. \$27.50
- 450—1848 1 touches bust and 4 seems to touch curl. Roughness in field gives the appearance of a double profile and a double outline at bust, lower curl and behind hair. Rough reverse as well. XF-40. \$35.00
- 451\* 1849 N1 Reddish brown. Very likely struck as a proof but lacks brilliance. Attractive and with barely a sign of circulation. Scarce variety not in Schwartz. \$100.00

- 486\* N11. Proof Slanting 55. One of the real rarities of the Large Cents series. Newcomb did not own one! There was a cleaned proof offered in the Dupont Sale, a questionable proof in the Clarke Sale, none in Downing or Schwartz. This is ex-Frederick W. Geiss and may bring a runaway price.

### **UNITED STATES HALF DOLLARS**

The United States Half Dollars were very popular for many years. Of late, however, interest in this series was centered around a small group of serious collectors who saw in this fifty cents piece a long reign, longer than that of any other United States denomination, which also substantially maintained its original size. The Cent has claims to an equivalent reign but when broken down into the customary large cents and small cents groups, it leaves the Half Dollar in the fore.

The Standard Work on the series is by M. L. Beistle, "A Register of Half Dollar Die Varieties and Sub-Varieties." In Beistle's numbering system the obverse die varieties are numbered and the reverse dies are referred to by capital letters. (A.B.C. etc.)

Die-cracks, lumps, flakes, suction lines and all die defects are designated as sub varieties by small case letters. (a. b. c. etc.)

- 612\* 1794 B2D (Hazelton 5) Close date, 18 berries on reverse, R in AMERICA is re-cut. Very rare variety, ex-Macallister. Acquired as Extremely fine, but because of flatness on the high points the coin is graded a top very fine. Not in Cox Collection. Most desirable. \$900.00
- 613\* 1795 B2W (H2) Wide date, 5 high. 17 berries, 2 leaves below each wing. Out of our 1946 ANA Convention auction. Rare. Very fine, not in Cox Coll. \$325.00
- 614\* 1795 B7k (H7) High date, sixth star recut. UNITED is incused under LIBERTY. (Beistle calls this 'akcidefect'.) 7berries on left, 9 on right branch, 2 leaves below wings, milling akcidefectly incused outside of UNITED. Very rare, very fine. \$300.00
- 615\* 1795 B12R (H12) Low date. 9 berries left, 8 right, 2 leaves below wings, a leaf below N in UNITED is re-cut. Very rare. Acquired as uncirculated, this coin has only the slightest evidence of circulation. Not in Cox Coll. nor in O'Brien Colls. \$1000.00  
(Note: As this collection is being catalogued, prices for such lovely coins are going higher and higher. The five months elapsing between pen and print may well make the estimates seem like "wish we could buy at those prices" levels.)
- 616\* 1795 B16 Pa (H32) Wide date, stars touch curl and bust./nine on left, eight berries on right, CA re-cut, heavy curved die-break at lower right, 2 leaves below wings. About very fine, ex-1946 ANA Sale. Very rare variety, not in Cox Coll. The O'Brien specimen, very fine, sold for \$450.00
- 617\* 1796 Bla. Sixteen stars. Draped bust, small eagle. A very fine example of this rarity, scarcer than the 15 star variety. In demand at \$4750.00
- 618\* 1801 B1A. First A in AMERICA close to but does not touch wing, 13 arrows in claw. Very fine, ex-our 1949 ANA Convention auction. Rare and now catalogues at \$750.00
- 619\* 1801 B1B. The A touches the wing, 12 arrows in claw. Fine, very rare. Lists at \$250.00
- 620\* 1802 B1A. The only variety of this date. Rare. The obverse is very fine, the reverse a bit short of that. \$275.00
- 621\* 1803 B1A. Small 3. About Very fine. Ex-Mehl. Lists at \$350.00
- 622\* 1803 B2bB. Large 3. Acquired as extremely fine but is a sharp very fine. Lists at \$300.00
- 623 Another B2bB. Large 3. Obverse is fine, reverse not quite. Lists fine at \$105.00
- 624\* 1805 over 4. B1A. Close date, 5 over 4. There is a damage across ribbon and hair. About very fine. Lists at \$275.00
- 625—1805 B5F. Close perfect date. Not in Cox. Fine \$35.00
- 626—1805 B6J. Wide perfect date. Not in Cox or O'Brien Colls. Very fine, lustrous. Ex-Lyman H. Low (XF), ex-W. Raymond (XF). \$85.00

## PROOF 1864 SMALL MOTTO

- 904\* 2 CENTS, 1864 small motto. Proofs of this rarity are so seldom offered that the Guide Book lists no fixed value for it. The trio of rarities which includes the 1864L cent, the 1867 nickel with rays and this 2 cents piece, are in constant demand. The nickel has been showing up now and then, the two coppers remain elusive. From time to time we have had inquiries from collectors willing to pay up to \$5,000.00 for either of the coppers. Here's one of them!

## PATTERNS

- 905—J161 (AW187) 1854 CENT. Liberty head left/ONE CENT in wreath. Bronze. A transitional piece. \$60.00  
906—J297 (AW355) 1862 EAGLE. Regular die except with motto. GOD OUR TRUST on a scroll above eagle. Copper. \$65.00

## 1880 STELLAS

- 915\* 1880 \$4.00 (STELLA) Gold piece, struck in aluminum. Variety with flowing hair, attributed by Dr. Judd as number 1659. Comparison of the rarity of each of the metals reveals that the gold piece is Rarity 6, the copper—Rarity 7, and the aluminum—Rarity 8. The gold piece sells readily at \$12,500.00 and while the aluminum lists at only \$3000.00 it would not surprise us to see it go well beyond that figure.  
916\* 1880 \$4.00 (STELLA) Gold piece, struck in copper and gilt. This, the more popular coiled hair variety, is a rarity 7 (equal to its gold counterpart which sells at \$15,000.00—when you can find one!) This, too, lists at \$3000.00 as number 1661 in Judd.  
917\* RARE 1882 NICKELS, the regular dies as used for the first type of Liberty Head Nickels of 1883, without CENTS. The complete set of 3 pieces in nickel, copper and aluminum are in a special plastic holder. The Judd numbers are 1690, 1691 and 1692, the respective A-W numbers are 1675, 1676 and 1677. Proofs, the set is well worth \$2500.00 the copper and aluminum pieces being very rare; the nickel piece has records to \$2500.00

## EXTRAORDINARY SET OF WHITE CENTS

- 918\* Perhaps offered for the first time, the following set of 15 White Cents (copper-nickel) may well be unique. It is the result of years of search.  
1—1856 Flying Eagle, proof, the type adopted in 1857. Listed as J180, AW206.  
2—1857 Flying Eagle, the regular issue. proof.  
3—1858 Large letters, the regular issue. Wire edge.  
4—1858 Small letters, the regular issue. sharp wire edge.  
5—1858 Small letter obverse, reverse of 1859. J191. Proof.  
6—1858 Obverse type of 1859 with Indian Head, reverse of 1858. J213, AW270. Proof.

- 7—1858, both obverse and reverse are the type of 1859. J208, AW264.
- 8—1859 Regular die. Superb brilliant proof.
- 9—1859 Regular obverse of 1859, reverse of 1860 with narrow shield as adopted. J228, AW 312. Proof.
- 10—1860 Regular Issue. Proof.
- 11—1861 Regular Issue. Brilliant proof.
- 12—1862 Regular Issue. Brilliant proof.
- 13—1863 Regular Issue. Brilliant proof.
- 14—1863 Regular Issue but with L on ribbon. J302, AW426. Brilliant proof.
- 15—1864 Regular Issue, brilliant proof.
- 16—1864 Obverse of the regular die without the L on ribbon, reverse the flying eagle, small letter die as used on the 1858 obverse. J362, AW458. Rarity 8. Only 2 or 3 known. Brilliant proof.
- 17—1864 Regular dies with L on ribbon, equal in rarity with the bronze cent which sells for \$5000.00. J358, AW465. Brilliant proof.
- 18—1865 Regular dies, copper-nickel (as are all of the pieces in this extraordinary offering) with L on ribbon. J404, AW525. Brilliant proof.
- 19—1866 Regular dies (with L on ribbon), copper-nickel. J456, AW597. Brilliant proof.
- 20—1869 Regular dies, copper-nickel. J669, AW823. Rarity 7. Seldom seen. It is conceivable that a gradual acquisition of the individual items might be achieved at a cost of less than \$20,000.00. Certainly, it would be time-consuming and there would always exist the possibility of failure. The opportunity is here, to acquire the complete group in select condition at one time.

### **\$3.00 GOLD**

- 1244\* 1873 Proof. There is some rubbing in the field. One of the very rare dates and in demand. Only 25 proofs were struck. In March 1962, we sold a brilliant proof for \$4000.00  
 1245\* 1874 Proof. This date, while common, is rare in proof condition. There were, in fact, only 20 proofs struck. This coin, however, is far from being the best of them, having been cleaned. It has a high lustre but lacks the frosty surface on the head. It cost \$1200.00 and should bring more. A gem specimen, in our opinion, is worth at least \$5000.00  
 1246\* 1879 Superb brilliant proof. Only 30 pieces minted. Another popular date. In March 1962, we sold this coin for \$1200.00 and had several orders for it. Will undoubtedly go higher today. Lacking in the Wolfson Sale.  
 1247\* 1881 Superb brilliant proof. One of the rare dates of the series, only 550 coins minted altogether with some 54 being proofs. Here is another which we sold in March 1962 for \$2000.00 and for which several orders were received.  
 1248\* 1883 Superb brilliant proof (you can cut your fingers on the wire edge!). Rare, only 940 coins minted of which 89 were proofs. Lacking in the Wolfson Collection. Ours, in March 1962, sold for \$1100.00  
 1249\* 1885 Superb brilliant proof. Sharp wire edge. A scarce date, only 910 coins minted, 110 of which were proofs. \$1250.00  
 1250\* 1886 Another brilliant proof, sharp. 142 proofs out of a total coinage of 1142 pieces. We sold the March 1962 piece at \$900.00, then in October paid \$900.00 for the Wolfson coin! \$1150.00  
 1251\* 1889 Last year of the \$3.00 issue. Brilliant and sharp, but is hairlined and has a couple of tiny edge bruises. Still, only 129 proofs were made. The Wolfson coin with abrasion on the reverse fetched \$850.00

### **\$5.00 GOLD**

- 1252\* 1795 Small eagle. First year of this denomination; this popular coin, about uncirculated, is superior to the Wolfson piece which sold recently to a dealer for \$1300.00. This is worth \$1750.00  
 1253\* 1800 About uncirculated. These are selling close to \$500.00  
 1254—1802 over 1. About extremely fine. Comparable to Wolfson's which sold at \$390.00
